have always liked Clem Attlee and felt that his critics underestimated him but I cannot understand the bitterness with which he has turned on the British Parliamentary system which made him Prime Minister ultimately a coroneted peer. Nor did his favours end there. Using the prestige of his political background he has now become a newspaper commentator who is paid a very high fee for his contributions.

But let us look with clear appraising eyes at the charges made, against Parliament and its elected members. Take first the accusation that many M.P.'s are committed to support the cause of industries or business in which they have a direct financial interest.

Actually there is a Parliamentary ruling on that very point. Providing an M.P. declares to the House his private interest House who have an intimate knowledge and even connection with the dispute. Let me repeat that these M.P. is must declare their interest before they begin their speech.

There was just such a clash when the Socialists were in and debated nationalisation of the industry. Of course M.P.'s who were steel directors not only put their arguments before the House but automatically disclosed their private

The duty of Parliament is to govern the country and to ensure legislation that will benefit the notion generally of there are M.P.'s who deliberately put their personal interests before that of the nation there is always his local party association-which can demand an explanation and, if necessary, withdraw its support.

Now let us deal with the other charges made by the noble Earl. He says that there are men in Parliament who are carcerists. In the name Belsabub what does that mean? had any doubt that Macmillan was am-Harold bitious. Nor did Winston Churchill or Lloyd George lack that same quality. May the gods forgive me but I suspect nearly all M.P.'s of being guilty of the same charge.

to the time covered by the previous article Hongkong Police, Indian Police Constables had been refrom Indian Regiments stationed here. But in the Superintendent, Captain W. Quin, who had served in the Army and also with the Bombay Police resolved to try Bombay and Madras as recruiting grounds.

His efforts proved to be successful, numerically speaking, for by 1865, the strength of the Police Force had risen to 610, and breaking it down by nationalities shows that of that number, 369 were Indians, 165

Sidney Bradford gets used to seeing where he's going, of the wheel of a Dodgem car.

CIDNEY BRADFORD, blind for more than 50 years, turned his pale but seeing eyes up to the sky and said, with not much interest: "That can't be the moon, it's got a bit missing.

So I explained about the moon and its quarters and we got back in the car, on our way to London, and he went on telling me how he may go blind again in six months' time.

Now I was bringing him to London, intending to spend three days with him, to try to share his first _ experiences the seeing world, not knowing it would be ten days, because this would be harder than I knew. Harder even than two Cambridge scientists knew-the ones we were on our way to meet.

It was getting dark, sidelight time, and I stopped saying "There's a sheep," and "Thut's a bridge," and being and because he said simply "Yes." I was to understand later.

He had been quiet, in the hospital, for some days, not wanting to leave. He was quiet now. He sat in the car, with his hat on, dabbing his eyes, mostly the left one.

He told' me: "I refused at first. I'd never wanted sighthow could I? I never knew what seeing meant."

He dabbed his left eye, silent. Then: "But I decided I ought to. People kept talking about how wonderful seeing was and it seemed wrong to refuse. Now I'm not sure."

Lost world

But he said even this cheerfor he is a cheerful. friendly man, though hard to get at, with a lot going on underneath. There is, almost certainly, no need to pity him.

because of the shortage of comeas for grafting, and then he was not cheerful. They were the worst years of his life. He grew thin and old and brooding.

"It wasn't simply the waiting," he said, "I don't know what it was. Sanchow I felt I'd lest something."

So he had, in 50 years he had built up his good world, complete and satisfying, and so won a victory. Now he was throwing it away. There would have to be sacrifloes.

and the bandages were taken off. He saw. And we who can see may nalyely think this was the most momentous day of his life; that the blind given sight must want to fall on their knees and ery: "Wonderful!"

First face

Most of then fall and cry all right, but they cry for help, because they cannot stand up, because they are overwhelmed by giddiness and fear of the enormous flood of sight.

Or they feel that the thinks they see are reaching in, touching their eyes, threatening; and some are so terrified they have to be put back to bed and drugged to sleep, and so made "blind" again and safe.

The unsentimental truth is this: to regain sight may be worse than to be blinded.

It was not this bad for Sidney Bradford—and this was signifi-cant — but it was bad enough.

He not coly did not know what the world looked like; he did not, apparently, even know. what looking was. His world of touch and sound and smell and taste ended at the finger-tips, at the limit of his hearing.

Now he had to learn to see, to adopt to a world which to him was as much a babel of sights as Chinese to us is a babel of sounds. He had to separate the "words" of sight before he could learn them.

"As I was saying," he said, street of squat houses and four single, solid object. He had to "if I do go blind again, I'll stay lamp-posts; happy with his learn the different things-like

thought ungrateful. And he is. Then he was told he could had to learn to remember it the next time I saw it."

> When he looked up on that first day and "saw" the surgeon's face he did NOT say:
> "Ah, the wonderful surgeon." What he did was this:-

"I saw a dark shape with a bump sticking out and heard a so I felt my nose and guessed the bump was a nose. Then I knew if this was a nose I was seeing a face,"

Sidney Bradford has had to do this with everything - a stupendous lask. Similarly, he has had to adapt to dees of height and depth and distance, all allen to the blind.

This is why he would have window to the pavement, not understanding it was 30it below. This is why ,he said:--

smaller than they really ace, and buildings bigger, and stairs highen and I felt I could reach up and touch the sun."

recorded cases it has taken up to six menths to adapt to the seeing world. It takes some people weeks to recognise even the difference between a square and a triangle, without first having to count the corners.

Sidney Bradford did it all almost at once. And he did it with a state of vision which, pending further operations, is fantastically distorted.

How did he do it? The theory is complex, and so far a bit up but it scans that "The Bradford theories about how we see. And influence the future training of blind children.

THE story of Dawn Addams and her Prince is a fairy tale told by a cynic. And, of course, it does not have a happy ending.

The four-year-old marriage of Miss Addams and Prince Vittorio Massimo has ended in an atmosphere of acrimony and publicity.

The Prince is reported to have said he would tell their threeyear-old son Stefano that his mother was dead. Miss Addams was reported in the Italian newspapers to be planning to kidnap her son.

. The M.P.'s wife uncarths a mysterious skeleton in the cupboard of the plous princess who died a recluse.

Was the tailor's adopted son of Royal birth?

IN Weymouth the gruff King strutted along the har-L bour sniffing at the ozone. And in the men-of-war beneath him straw-hatted sailors nudged each other and whispered,

But they were not discussing the King. Their roguish eyes were on the sweet-faced royal girl who followed him.

For days the young Princess had been too ill to move from her room. Now she was suddenly better. Leeringly the sailors asked: "Whatever's been wrong with her?"

present/day schoolboys... Footballers are certainly not born at 18 or 19 years of ago. Unless the youngsters are given the right chance they can never mature and it is the pledged duty of the Hongkons Football Association to give them that chance in the furtherance of the best interests

Such a policy requires strength, foresight and impartiality in vital offices and it is a matter for regret that in certain places we apparently lack such qualities.

The failure of the much publicised Earl Haig Boxing Tournament to attract a worthwhile crowd to the MacPherson Stadium last Friday must have been as big a disappointment to the British Legion as it surely was to the Hongkong Amateur Boxing Association.

Why should this top class annual event suddenly lose its popularity: why should it dwindle in crowd appeal: why, in a comparatively short time, should the Colony fight funs change their loyalties?

The show had everything to commend it. It was enthusiasticalin and imaginatively advertised throughout the Colony the prices for the popular seats were most' reasonable. . . there was-on paper at least-a first class card and above all there was a most worthy cause to be supported, yet, judged ominsi any reasonadie expectations, it failed.

BLARNEY STONE RUGBY STARTS ON WEDNESDAY

29 Teams Taking Part This Year

By PAK LO

Although there are no games scheduled for this weekend most rugger fans have plenty to talk about with the Blarney Stone seven-a-side competition now in the offing.

The draw has now been made, and details of it are given below.

The number of 29 entries this year shows an improvement over last year. This is not up to the wonderful total of 54 that was reached in 1955, but is still very good, and should provide some exciting encounters.

Why Nat Is Still Danger

By Stanley Matthews

WHERE was no lighthearted chatter in our compartment of the train returning from Cardiff. England had lost 2-1 to Wales and all three of us Tom Finney, Nat Lofthouse, and I, had been off form.

Nobody spoke. We were thinking about what might have been. Why things had gone so badly for us. Suddenly, Lofthouse gave a haif-apologetic laugh. "Well, lads, this is the old Lofthouse swan song," he said. "I've just said a fond

Bolton have a strong, workmanlike team which will take some knocking out of the Cup. But all their players will agree that the Lofthouse inspiration is their trump card. But don't think Nat is an casy-going skipper. He may be a comedian off the field, full of jokes and tricks, but he is deadly serious on the pitch.

The other players know that when Nat leans hands, he wants a 100 per cent endeavour . . . and he Is not happy until he sets.

New York, Mar. 6. New York boxing circles were doubtful today of statements that- world middleweight boxing Sugar champion, Robinson would defend against Ger-Gustav Scholtz, the champion, in Berlin next counterfeiting is connected in September.

The reason for the doubt is the "very advanced" state of the negotiations for a fight between Robinson and Archie Moore, world light-heavyweight champion, for Moore's title. It was reported from Berlin on Thursday that Gains-

ford had signed a provisional contract for a Robinsonmatch with the manager, Fritz Greischel. providing that meantime won Moore's title.

Bearskin Argument Rages On

London, Mar. 6. Angry young guardsmen defended their handsome headgear after critics had complained that their bearskins were shoddy.

The controversy, started by a letter in The Times, is ranging through Whitchall, the nowspapers and the royal palace where members of the Brigade of Guards act as sentries. In his letter, 35-year-old Mr.

Peter Page complained that the bearskins were hald, bedraugled, The War Office shrugged off the complaints as helpg "some-

But Lieut-Colonel Michael Cock, the Guards Brigado Major, admitted that some of the bearskins were not up to standard.

He added: "They are not replaced often enough. Some are up to 50 years old, worn ones are cut up and used to make new

And an Iraic bearskin wearer, a regimental sergeant-major in men arrested her on a bus at the Coldstream Guards, added: "Believe me, if I saw a guardsman with a mangy bearakin his feet wouldn't touch the ground on the way to the guard room. -China Mail Special,

MILTON SAYS UMPIRES POOR

Bristol, Mar. C. Arthur Milton, England opening balaman, said here that umpiring in the recent Anglo-Australian Test was "generally series speaking prelly poor. Milton, speaking at a football club dinner, was

the first England betsman to break silence on the umpiring controversy. He added: "But there was nothing deliberate

about it, in my opinion. "The umpires were out there doing their best, and though they gave wrong decisions, they were trying to be fair. "Unfortunately all the poor decisions seemed to

go against us." Militon confirmed that England had objected to Australian umpire Mel McInnes before his appointment in the Fourth
